Fundahigado America Foundation's main focus is to make the knowledge and training associated with pediatric liver transplantation accessible to medical centers in underprivileged countries in Latin America and the Caribbean.

### PHOTOGRAPHY EXHIBITION

The photography exhibition features several cases of pediatric patients with very limited resources who were cured through transplantation of end stage liver disease over that past 10 years thanks to the Fundahigado program in Venezuela.

Thank you for the supporters:

Yuliana will turn 14 this month thanks to a Live Donor Liver Transplant performed by the Fundahigado team 9 years ago in Caracas. Her life continues as a junior high school student. She loves to sing and go out with her classmates.
